Every three minutes a patient dies from sepsis. It continues to be a difficult disease to consistently treat and defeat. This symposium starts with a refresher on sepsis pathophysiology. Then, we will learn about Banner Health's experience on developing electronic processes to enhance sepsis identification. Interactive case studies, patient stories, and experiences of a large system taking on sepsis will be discussed. Finally, sharing the story of Banner Desert's and now Banner Health's Sepsis Initiative.

**Registration is \$40. Seating is limited to 240 people.**

Brochures with registration information will be coming soon.
